

IN THE CLAIMS:

Please cancel Claim 1-7 and 14-31, before calculating the filing fee. Claims 8-13 are pending.

1-7. (Canceled)

8. (Original) A method for treating body tissue, said method comprising the steps of:

(a) providing a catheter having a proximal end portion, a distal end portion and first and second passageways extending between said proximal end and said distal end portion, said first passageway having an open distal end, and said first and second passageways being in flow communication with each other proximate to said distal end portion;

(b) placing the distal end of said first passageway over a desired section of tissue;

(c) drawing the desired section of said tissue into contact with open distal end of said first passageway so as to isolate said desired section of tissue;

(d) communicating a tissue treatment fluid into said second passageway through said proximal end for treating the desired section of tissue at said distal end portion;

(e) removing said tissue treatment fluid through said first passageway.

9. (Original) The method of Claim 8 wherein said step of drawing the desired section of said tissue into contact with

said open distal end comprises applying a suction force through the first passageway.

10. (Original) The method of Claim 9 wherein said suction force is provided by a syringe.

11. (Original) The method of Claim 8 wherein said tissue treatment fluid is directed from said second passageway to said first passageway so as to contact said desired section of tissue.

12. (Original) The method of Claim 8 wherein said first and second passageways are parallel.

13. (Original) The method of Claim 8 wherein said first and second passageway are coaxial.

14-31. (Canceled)
